

Continuing Professional Development Workshop

Ego states

Led by: John Baxendale MSc, PTSTA(P), CTA(P)

Wednesday 8 August 2018 (9.30 to 4.30)

The idea that our personality is made up of what we modelled on others (Parent ego state), how we used to be (Child ego state) and responsive here and now functioning (Adult ego state) was a revolutionary idea of Dr Eric Berne in the late 1940s. This workshop will explore Berne's model of ego-states, which he defined as a consistent pattern of feeling and experience, directly related to a corresponding pattern of behaviour. Participants will explore their own ego-states, how to diagnose ego-states in clinical practice, and how to use the concept of ego-states in therapeutic work.

About the Workshop leader

John is a UKCP registered psychotherapist, a Provisional Teaching and Supervising Transactional Analyst and a Certified Transactional Analyst. John has many years of experience in the caring professions in Western and Eastern Europe. He has a clinical practice at the Wealden Institute. He has an Advanced Diploma in Forensic Counselling and Psychotherapy and has an interest in working with survivors and perpetrators of abuse.

This Workshop is recognised as 6 hours Continuing Professional Development - Cost: £ 110 Venue: Wealden Institute Crowborough

Workshop Entry requirements: TA101
