Redecision TA with Relationship

Led by: John Renwick TSTA

Saturday and Sunday 22 & 23 June 2019 (9.30 to 4.30)

In the 1970's Robert and Mary Goulding developed the theory and practice of 'Redecision Transactional Analysis', this can be understood as extension of Classical TA ideas and practice. In the last 20 years TA has incorporated new ideas, concepts and practice of using the relationship between therapist and client as an important aspect of TA psychotherapy. In this workshop we will explore how we can incorporate the Relational practice into Redecision TA. We will explore the theory and practice of both Redecision and Relational TA through discussion, examples and live work. A new theory of the Type 3 Impasse will be offered. This will be an opportunity to clarify any aspect of Redecision Therapy and explore the concepts of working Relationally. Each day will count as 6 hours of advanced training.
