For individual flyers please go to: www.wealdeninstitute.co.uk
or phone the office on: 01892 655 195

Please note, some of the training events take place in France – these are clearly marked

Brown workshops are for people who have only done a little previous training, for example, 1st year Counselling students.

Blue workshops are suitable for people who have done at least one year of Diploma level training in Counselling.

Pink Training events are more specialised and it is advisable to speak to a College Tutor before booking onto them.

NB. DIPLOMA IN COUNSELLING STUDENTS have five pre-paid workshops annually, at the standard fee of £119 per day. This fee will increase in July 2020, and is reflected on the individual flyers. For any workshop priced above this, Diploma students will be asked to pay the difference. Wealden College diploma students please also note that the TA101 course counts as two days of your 5 annual pre-paid workshops. Attendance at a half day workshop uses up half a workshop credit.

Workshops run from 09.30 to 16.30 with a one-hour lunch break, and morning and afternoon refreshment breaks with tea and coffee provided, unless otherwise stated. For face to face workshops, a kitchen is available for your use, including a fridge and microwave oven should you wish to bring your food. Lunch is not provided. When workshops take place online, there will be additional breaks, at times negotiated with the participants.

Official TA101; a two-day, accredited Introductory Training in Transactional Analysis.

This workshop will probably take place on Zoom

'Transactional analysis is a theory of personality and a systematic psychotherapy for personal growth and personal change'. That's the definition of TA suggested by the International Transactional Analysis Association. In fact, TA today is all this and much more. Among psychological approaches, TA is outstanding in the depth of its theory and the wide variety of its applications.

As a theory of personality, TA gives us a picture of how people are structured psychologically. TA also provides a theory of communication which can be extended to give a method of analysing systems and organisations.

TA offers a theory of child development and a theory of psychopathology; the concept of life-script explains how our present life patterns originated in childhood.

This fully internationally accredited, introductory, two-day course is invaluable for people interested in using TA in their professional workplace, or in their private life, and is the starting point for anyone wishing to go on to further recognised TA training.

Counts for 12 hours CPD. Leads to an internationally recognised, "TA101 Certificate".

Led by John Baxendale MSc, PTSTA, Licence ès lettres. Cost: £210
